

May Newsletter

Reading: We will be moving into benchmark testing for our district. This testing will tell us at what level each student is reading at this point of the year. In class we are working on a Greek Mythology Unit.

Writing: We are just finishing up our narrative writing. We will be doing some fun writing assignments for the rest of the year.

Math: We are working on geometry and word problems. Even though it's the end of the year please continue to work on multiplication and division facts at home.

Thanks,
Ms McClellan
