

Week of Nov. 27- Dec. 1

Panthers

Last Week was a short week filled with many exciting activities.

Thank you to everyone who helped out by donating money for our Thanksgiving feast. We were able to enjoy turkey, mashed potatoes, corn, bread, and pumpkin pie.

We also made bracelets that told the story of the journey the Pilgrims made and how the first Thanksgiving came about.

The Columbus Zoo came to our school to share some of their animals. We learned about birds, snakes, hawks, cockroaches and more. We even had the opportunity to pet a baby snake!

This week we will be writing our narrative final drafts. We have been working so hard on these books for weeks. Make sure to read your child's final copy when they bring them home. They are so proud of their finished copy!

In Science we will be talking about matter and the different kinds of matter that we encounter every day.

Thank you to everyone that donated plastic bottles and cans. Our class won the competition and will be celebrating with an ice cream treat party.

This week will be Miss Temple's last week in our classroom. She has been an amazing addition to our room and she will be greatly missed. I am creating a memory box for her and would like to fill it with pictures and letters from the students. If your child would like to draw a picture or write a letter, please bring them in by Friday to add to the memory box. Thank you!

December 5th will be the 1st grade Christmas STEM night from 5:00-6:00. Reservation slips will be sent home later in the week. We hope you can come join us for a night of fun!

Upcoming Events:

Tuesday November 28: Ben Franklin T-Shirt Tuesday

Friday December 1: Interims go home

Miss Temple's Last Day

Tuesday December 5: 1st Grade STEM Night
